

# Airborne10

## EXTRACTS FROM EPA REPORT

### Comparison with US Technologies

The Airborne 10 control technology is far less expensive (up to 90 percent less) than:

- Scrubbing towers
- Packed column scrubbers
- Cyclonic scrubbers

Airborne 10 is much less expensive than biofiltration.

TABLE 11-3

PARAMETER	VALUE	
	Bio filter	Airborne 10
Capital Cost	\$375,00	\$5,767
Financing Cost	\$250/year @ 15 percent	Not necessary
Operating & maintenance costs	\$60,900 per year	\$11,990
